It gives a thorough perspective of the events, and I believe faithfully reviews the facts as well as the political atmosphere surrounding these events. It vividly reminds us of the horrors of war, both from a heroic viewpoint and from the viewpoint of the brute force that is war, ultimately culminating in the use of the atomic bomb. 1 of 1 people found the following review helpful. Bill and Martin "killed it" with this book!! By Da Chief I have read all of the Killing books with the exception of Killing Jesus. With each publication I find things I never knew regarding the person or the event. It has opened my eyes to the activities behind the events. I, like many people of my generation (I am 73 yrs. old) remember WWII and always believed the biggest criminals of that war were Hitler and Stalin. Now, I discovered, through "Killing the Rising Sun" the Japanese were as guilty as the others. It was a book difficult to put down. My congratulations to Bill and Mr. Dugard on another wonderful eye opening experience. 0 of 0 people found the following review helpful. Absolutely a must read for anybody. I was 11 ... By Hazel Spain Absolutely a must read for anybody. I was 11 years old when this war started, so I lived through it as a teenager. There were many things I never knew about. The younger generation should read it to understand the sacrifice our "boys" made to defend this country. And yes, most of them were just "boys" who gave their lives. Thanks to them and the many who did make it back home.

The powerful and riveting new book in the multimillion-selling "Killing" series by Bill O'Reilly and Martin Dugard Autumn 1944. World War II is nearly over in Europe but is escalating in the Pacific, where American soldiers face an opponent who will go to any length to avoid defeat. The Japanese army follows the samurai code of Bushido, stipulating that surrender is a form of dishonor. "Killing the Rising Sun" takes readers to the bloody tropical-island battlefields of Peleliu and Iwo Jima and to the embattled Philippines, where General Douglas MacArthur has made a triumphant return and is plotting a full-scale invasion of Japan. Across the globe in Los Alamos, New Mexico, Dr. J. Robert Oppenheimer and his team of scientists are preparing to test the deadliest weapon known to mankind. In

Washington, DC, FDR dies in office and Harry Truman ascends to the presidency, only to face the most important political decision in history: whether to use that weapon. And in Tokyo, Emperor Hirohito, who is considered a deity by his subjects, refuses to surrender, despite a massive and mounting death toll. Told in the same page-turning style of "Killing Lincoln," "Killing Kennedy," "Killing Jesus," "Killing Patton," and "Killing Reagan," this epic saga details the final moments of World War II like never before."

ldquo;An enthralling, gripping account of the bloody battles, huge decisions, and historic personalities that culminated in the decision to drop the atomic bomb and brought the war in the Pacific to its climactic end. A masterful, meticulously researched work that captures the barbarity of the war waged by those who swore allegiance to the Japanese Emperor ndash; and by those who crushed the military might of the Rising Sun.rdquo; ndash; General David H. Petraeus, commander of the surge in Iraq (2007-8) and coalition forces in Afghanistan (2010-2011)About the AuthorBill O Reilly is the anchor of "The O Reilly Factor," the highest-rated cable news show in the country. He is the author of the number-one bestsellers "Killing Lincoln," " Killing Kennedy," " Killing Jesus," " Killing Patton," and "Killing Reagan."Martin Dugard is the "New York Times "bestselling author of several books of history. He and his wife live in Southern California with their three sons."
